**AVALON**
DEVELOPMENT GROUP

Let us help you with your next project.

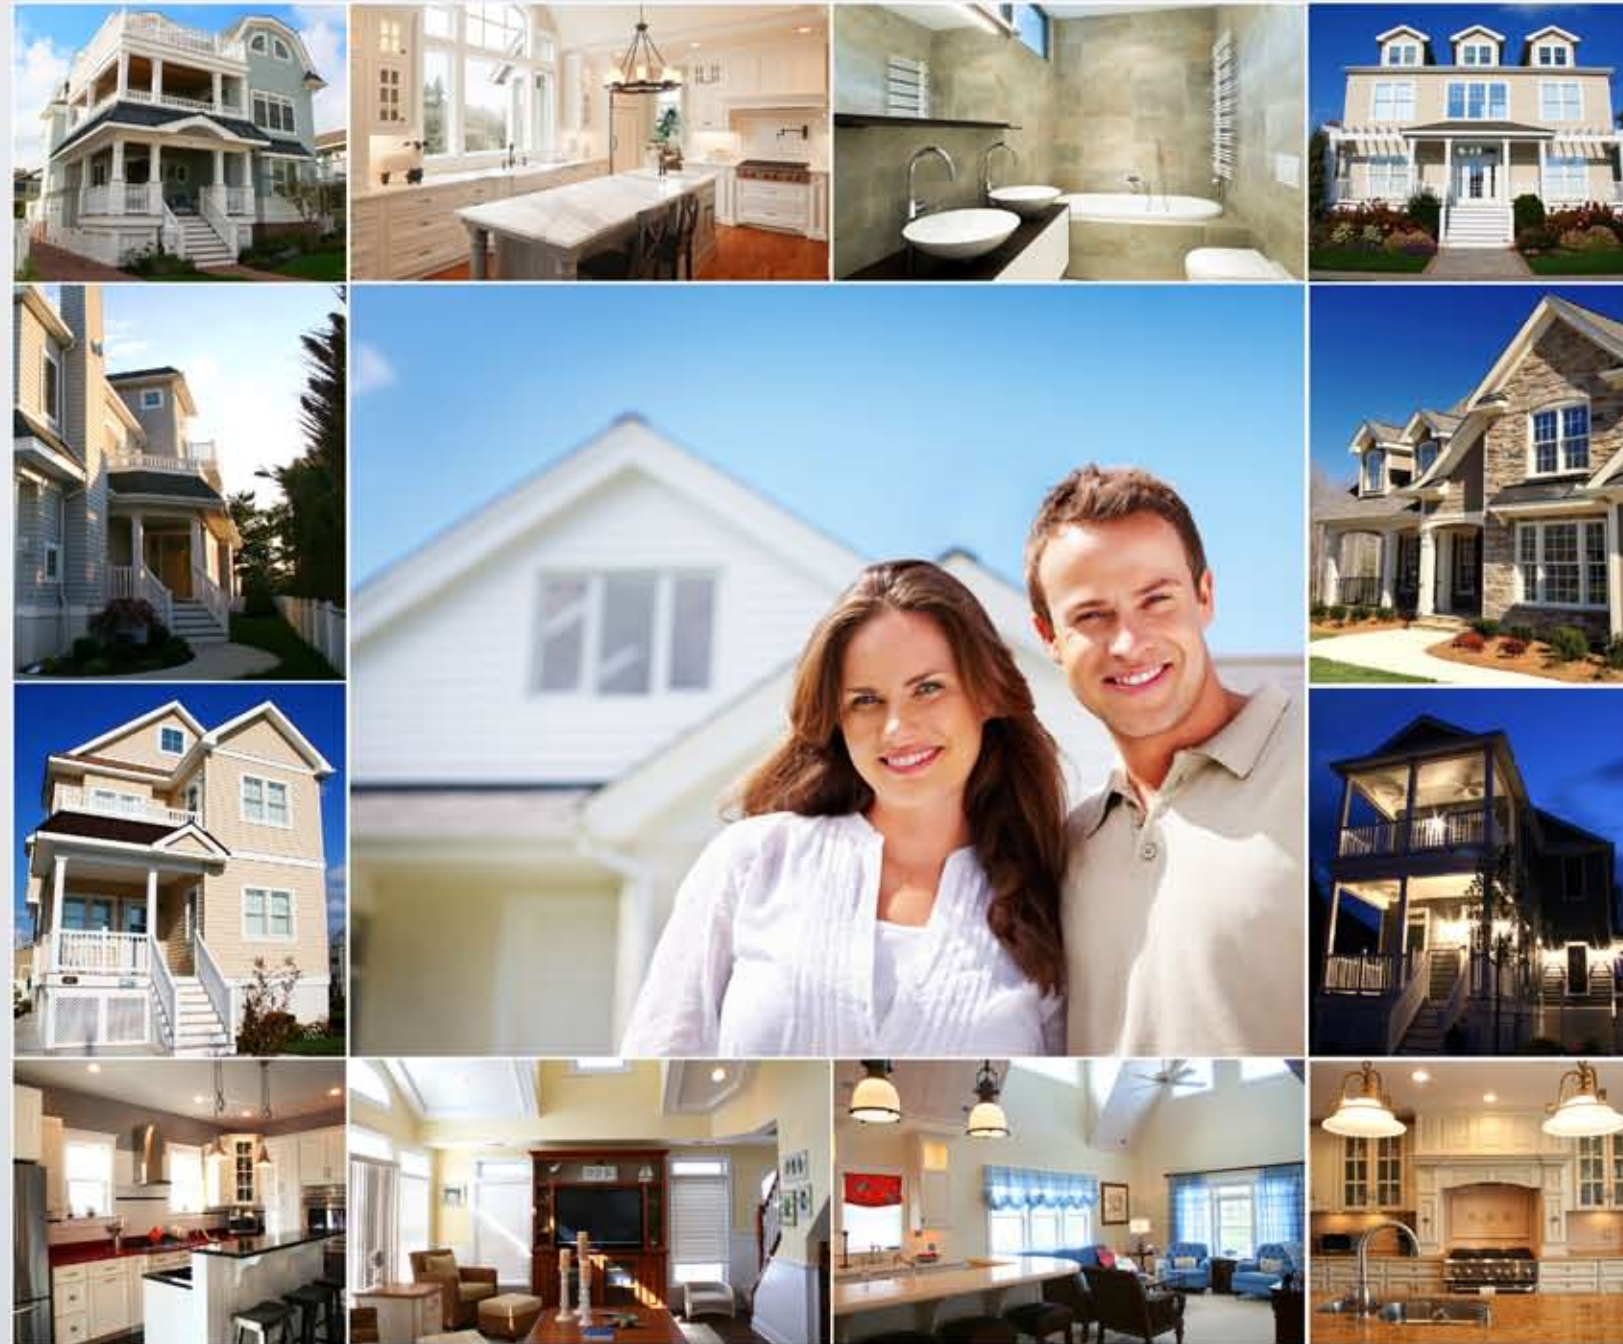

Avalon Development Group is a full service real estate firm, focusing on residential and commercial building, project management and development utilizing Systems Built or Modular Construction.

**Avalon Development Group
ADVANTAGES**

Cost Savings - A controlled labor force, purchasing materials in bulk, and less waste, all lead to a more cost effective approach to building.

Time Savings - Factory built methods reduce overall construction timeframes to as little as 1/4 the time of comparable site construction.

Superior Construction - Built in a controlled environment with no exposure to the elements, Computer generated material cuts and structurally stronger framing methods create a superior product.

HOW WE WORK

Use our plans - Choose from one of our many plans, and work with one of our Architect Partners to modify and/or customize that plan to your exact specifications.

Custom Design - Start from the ground up and develop the plan of your dreams with one of our Architect Partners.

Bring your own Plan - Bring us your Plan and we will do the engineering to convert to our Systems Built method.

Customer Satisfaction - Our primary goal is your complete satisfaction. We have developed our Company, Systems and Services to provide a solution that is Faster, more Cost Effective and Flexible to meet our customers distinctive needs.

In addition to the Washington Metropolitan area, **Avalon Development Group** has offices in New Jersey and Delaware.
